Ford Flathead V8 Engine

The Ford flathead V8 is a V8 engine with a flat cylinder head designed by the Ford Motor Company and built by Ford and various licensees. During the engine's first decade of production, when overhead-valve engines were used by only a small minority of makes, it was usually known simply as the Ford V-8, and the first car model in which it was installed, the Model 18, was often called simply the "Ford V-8", after its new engine. Although the V8 configuration was not new when the Ford V8 ...

Ford flathead V8 engine - Wikipedia

It's been over 50 years since the last Ford flathead V-8 was commercially produced in the U.S. It was not your Dad's engine-it was your grandfather's. Simple by today's high-tech standards, during...

The Ultimate Source Guide for Flathead Ford V8 Performance

The first of the Ford L-head (flathead) V8 engines left the factory on March 9, 1932. This engine used a 90-degree block, with the valves located next to the pistons, pointed upwards. The heads are not truly flat, having four spade-shaped combustion chambers to accommodate the motion of the valves.

Ford Flathead V8 Engine For Sale - Vintage Car & Truck Parts

The Ford Flathead V-8 engine powered Ford and Mercury vehicles from 1932 to 1954. The Ford Flathead is a valve-in-block engine and the valves open adjacent to the combustion chamber, rather than from the top, as in later engines. The four different V-8 flathead displacement sizes between 1932 and 1953 are 136, 221, 239 and 337 cubic inches.

The Flathead was the first independently designed and built V8 engine produced by the Ford Motor Company for mass production and ranks as one of the company's most important developments.

Flathead City Home Page

The Flathead V8 engines produced by Ford Motor Company included basically three versions. The most popular being the 85-125hp that was first produced in 1932, and continued until 1953 (except for Canadian and Australian production which ended in 1954). Ford also designed and produced a smaller 60hp flathead V8 engine from 1937 until 1940.
