Rise Of The Robots Uc - Aplikasi Dapodik
"I tip my hat to Martin Ford's Rise of the Robots, which is vacuuming up accolades and is recommended reading for IIF staff. Ford's analysis, in a somewhat crowded field of similar books, offers a sobering assessment of how technology (robotics, machine learning, AI, etc.) is reshaping labor markets, the composition of growth, and the distribution of income and wealth, and calls for enlightened political and policy leadership to address coming, accelerating disruptions and dislocations."—
