Slow Bullets

Alastair Reynolds, best known for his brilliant Revelation Space series, published Slow Bullets in 2015. Something of a departure, this is still a tense, intelligent space thriller. Told with wit and raw emotion, Reynolds uses an omnipresent dramatic tension to enhance his minimalistic narration. The novel opens as an epic space war is concluding.

Yet in this survey, at least, wider, heavy bullets win more votes. Because faster is better. For several reasons, one of which often surprises fans of heavy, slow bullets. First, a fast projectile goes farther. Second, it deflects less in cross winds. Third, lighter bullets recoil less than heavier. Fourth, speed adds power. Lots of power.

Slow, Heavy Bullets Win! - Ron Spomer Outdoors

When it comes to cartridges and bullets, one of the most argued topics in the previous decades was .45ACP vs 9mm Luger (aka 9x19). Traditionalists argued that the .45ACP with a heavier 230gr bullet moving at a relatively slow ~830 feet per second made for better stopping power than the 9x19's lighter 115gr / 124gr bullet moving at ~1200 fps.

Splitting Bullets in 4K - YouTube

Slow Bullets is slightly different from the kind of narrative I grew used to after reading Reynolds' books like Chasm City, Revelation Space, Redemption Ark or Absolution Gap: the scope here does not concern galactic civilizations or multi-layered political plots, but rather focuses on smaller-scale events that nonetheless manage to gain intensity and depth because of that reduced focus, and not in spite of it.
