The Cremation Furnaces Of Auschwitz

The cremation furnaces of Auschwitz, fired by means of coke-fed gasifiers, constituted a development - or rather a simplification - of the civilian types; however (as I found out in the early stages of my work) it is difficult to locate detailed information on these furnaces even in the specialized literature.

The Cremation Furnaces of Auschwitz: A Technical and ...

What did exist, though, were cremation furnaces used to turn into ashes the remains of deceased inmates. Survivors claim that thousands of corpses were burned in them every day, and that smoke and flames shot out of the crematory chimneys. The present study investigates the Auschwitz cremation furnaces from the bottom up.

The Cremation Furnaces of Auschwitz, 3 Parts

The Cremation Furnaces of Auschwitz, Part 2 Documents

As was noted earlier, the furnaces at Auschwitz were coke fueled. Mattogno claimed that there were not enough coke deliveries to Auschwitz to cremate the number of bodies of non-registered prisoners who were murdered in Auschwitz from April to October 1943, the time when the four new crematoria were operating.

Body Disposal at Auschwitz: The End of Holocaust-Denial

The product they developed and sold throughout Europe, was lauded in a company brochure as “the purest expression of perfection in cremation technology,” promising an odorless, smokeless, dispatch...

THE CREMATION FURNACES OF AUSCHWITZ, by Carlo Mattogno ...

This cremation oven consisted of a coke generator; a self-contained cremation chamber (muffle); a system of baffles underneath (recuperator), which served to preheat the air required for the cremation; and the diversion of the carbon monoxide gases around the muffle. The ovens built during the 1920s needed 60 to 75 minutes and consumed some 160 to 260 kg (350 to 570 lbs) of coke per cremation.

Mattogno's Opus Magnum on Cremation Furnaces Finally ...

The authorities in Auschwitz-Birkenau abandoned any respect for the dead and did not abide by civilian rules for cremation. They burned multiple bodies at one time, continuously pushing in more to keep the fires hot. The crematoria ovens at Auschwitz-Birkenau certainly cremated many more bodies than the 85,092 figure Fred Leuchter calculated.
